<sup>1</sup> No direct vehicle entries in these provinces. — Aucune entrée directe dans ces provinces.

In the first quarter of 1979, non-resident travellers entering Canada numbered 4.2 million, up 0.2% from last year. Canadian residents returning to Canada totalled 7.5 million, a decrease of 7.9% over the first quarter of 1978. Immigrants, military personnel, diplomats and crews who are excluded from the above figures accounted for 1.0 million entries, up 8.9% from 1978. Year-over-year comparisons for March and the first quarter were affected by the Easter date change from March in 1978 to April in 1979, which in part explained the lower volume of traffic especially between Canada United States this year.

Preliminary estimates for the first quarter of 1979 show that Canada earned \$241 million from international travel, with receipts from the United States totalling \$163 million and those from visitors from all other countries reaching \$78 million.

Payments abroad by Canadians were estimated at \$1,096 million. Payments to the United States dropped to \$713 million while those to other countries remained almost unchanged at \$383 million. The above flows resulted in a travel account deficit of \$855 million in the first quarter of 1979. Because of the date change for Easter, this deficit is lower than last year's \$923 million and is only 1.8% higher than the \$840 million recorded in the same period of 1977.

The decrease in the number of Canadians travelling to the United States may, to some extent, be associated with the depreciated value of the Canadian dollar, as well as the concerns expressed in recent months about the availability of unlimited gasoline supplies in certain regions of the United States. Second quarter data will tend to confirm whether underlying shifts in trends are occurring.

#### Non-resident Travellers Entering Canada

During the first three months of 1979, 4.1 million United States residents entered Canada, a slight decrease from 1978. The number of visitors from countries other than the United States increased in each month to total 146,000 for the quarter, 7.7% above last year.

In the first quarter of 1979, the number of United States residents entering Canada increased in same-day traffic (2.1%) and total plane traffic (2.8%). One or more nights automobile travel decreased by 8.7% while total bus traffic dropped by 5.9% resulting in a slight decrease (0.02%) for the quarter in the total number of United States residents entering Canada.

Entries by United States residents started out strongly in January with increases recorded in all automobile, bus and plane modes. This produced a total monthly increase of 7.3% to 1.2 million visitors. However, bad weather throughout most of North America and the switch in the Easter dates resulted in a decrease in total United States visitors of 3.3 and 2.2% in February and March respectively. Even plane entries, which have remained strong over the last few years, showed little change in March due to Easter.

Long-term traffic from the United States (including overnight or longer bus and auto traffic and all plane, boat and train entries) decreased by 5.5% to 1.0 million entries in the first quarter of 1979. A

Durant le premier trimestre de 1979, le nombre de voyageurs non résidents entrant au Canada s'est élevé à 4.2 millions, soit une légère augmentation de 0.2% par rapport à l'an dernier, alors qu'il y a eu 7.5 millions de résidents canadiens qui sont rentrés au pays, ce qui représente une diminution de 7.9% comparativement à la même période pour 1978. Les immigrants, le personnel militaire, les diplomates et les équipages qui sont exclus des chiffres ci-dessus ont accusé une hausse de 8.9% par rapport à 1978 en atteignant 1.0 million. Il est important de se rappeler que les comparaisons par rapport à l'an dernier pour mars et le premier trimestre sont influencées par le changement dans la date de la fête de Pâques qui a été célébrée au mois de mars en 1978 alors qu'elle l'a été en avril en 1979. Ceci peut expliquer en partie la baisse du trafic cette année, spécialement entre le Canada et les États-Unis.

Les estimations provisoires pour le premier trimestre de 1979 révèlent que les voyages internationaux ont rapporté \$241 millions au Canada alors que les recettes en provenance des États-Unis se sont chiffrées à \$163 millions et que celles provenant des visiteurs de tous les autres pays ont atteint \$78 millions.

On estime que les dépenses des résidents canadiens à l'étranger ont atteint 1,096 millions. Les paiements faits aux États-Unis ont diminué à \$713 millions alors que ceux faits aux pays autres que les États-Unis sont demeurés presque inchangés à \$383 millions. Conséquemment, le Canada a enregistré un déficit de \$855 millions au cours du premier trimestre de 1979. En raison du changement dans la célébration de Pâques, ce déficit est moindre que celui de l'an dernier (\$923 millions) et ne surpasse celui de 1977 (\$840 millions) que par 1.8%.

La baisse du nombre de Canadiens voyageant aux États-Unis peut, d'une certaine façon, être reliée à la faible valeur du dollar canadien, de même qu'aux inquiétudes qui ont été soulevées au cours des derniers mois concernant la disponibilité d'approvisionnements suffisants d'essence dans certaines régions des États-Unis. Les données du deuxième trimestre nous confirmeront s'il y a des changements fondamentaux dans les habitudes de voyage.

#### Voyageurs non résidents entrant au Canada

Lors des trois premiers mois de 1979, il y a eu 4.1 millions de voyageurs des États-Unis qui sont entrés au Canada, soit une légère diminution par rapport à 1978. Le nombre de visiteurs en provenance des autres pays s'est accru à chacun des mois pour s'établir à 146,000 pour le trimestre, ce qui représente une augmentation de 7.7% comparativement à l'an dernier.

Au cours du premier trimestre de 1979, le nombre de résidents des États-Unis venant au Canada pour le même jour par automobile a augmenté de 2.1% et ceux voyageant par avion ont connu une hausse de 2.8%. Les voyages par automobile pour une nuit ou plus ont diminué de 8.7% alors que le trafic global par autocar a connu une baisse de 5.9% contribuant ainsi à une légère diminution de 0.02% dans le nombre total de résidents des États-Unis entrant au Canada.

Les entrées des résidents américains ont connu un départ fulgurant en janvier alors que des augmentations avaient été enregistrées dans toutes les catégories des trafics par automobile, autocar et avion résultant ainsi en une hausse de 7.3% pour le mois avec 1.2 million de visiteurs. Cependant, la mauvaise température dans la majeure partie de l'Amérique du Nord et le changement de date dans la célébration de Pâques ont contribué à des diminutions de 3.3 et de 2.2% en février et mars respectivement dans le nombre total de visiteurs en provenance des États-Unis. Même les entrées par avion, qui ont été relativement fortes au cours des dernières années, ont montré peu de changement en mars en raison du changement dans la fête de Pâques.

Le nombre de visiteurs des États-Unis entrant au Canada pour un séjour prolongé (ce qui comprend les entrées par automobile et par autocar pour une nuit ou plus et toutes les entrées par avion, bateau et train) a

decrease in the long-term traffic by auto of 8.7% was recorded while non-auto long-term travel rose by 0.5%.

An event which affected travel patterns between Canada and the United States was the total eclipse of the sun which took place in late February over much of northern United States, southern Manitoba and northern Ontario. Due to this event, residents of the United States entering Manitoba increased by 5%, reversing monthly declines in United States traffic which has occurred in the province in the last few years. The largest increases were recorded in the one or more nights automobile and bus travel which rose by 17% and 54% respectively during February.

The number of non-resident travellers from countries other than the United States continued to rise strongly in the first quarter of 1979. Visitors from these countries, excluding those who stayed less than twenty-four hours, increased by 6.5% to 131,000 in the first three months of 1979. Among the major tourist generating countries, arrivals from Japan (Canada's fastest growing overseas market) increased by 30.5% (14,000), France by 17.7% (9,000), the United Kingdom by 5.5% (30,000) and West Germany by 2.4% (13,000). On a continent basis, 86,000 visitors came from Europe (up 3.8%), 29,000 from Asia (a 24.6% increase) and 8,000 from continental Australia (11.5% above the first quarter of 1978).

#### Resident Travellers Returning to Canada

In the first quarter of 1979, the number of Canadian residents returning after a visit to the United States decreased by 8.3% to 6.9 million. Residents re-entering after visits to countries other than the United States also dropped, by 1.3%, to 537,000. The depreciated Canadian dollar may in part explain this lower volume of traffic but the attraction of warm weather in the winter still proves to be a major attraction for many Canadians.

In the first three months of 1979, residents of Canada returning from the United States by automobile decreased by 10.7% to 5.6 million re-entries. Same-day and one or more nights auto traffic declined by 8.6% and 18.2% respectively in the quarter, after each category experienced drops in volume in each of the first three months. The increases recorded in the same-day bus traffic for January and March were not large enough to offset the decrease of 11.8% which occurred in February. Overnight or longer bus travel decreased in each of the first three months of 1979 resulting in a decrease of 15.3% for the quarter.

For the first quarter, plane travel by returning Canadian residents rose by 7.4% to 1.0 million. Increases were recorded in each month of the quarter continuing the growth in plane travel that has been noted before.

Total long-term travel by Canadian residents decreased by 7.1%, to 2.8 million re-entries in the first quarter of 1979. Long-term automobile travel to the United States decreased by 18.2% while overnight non-auto travel increased by 4.3%. This resulted in a decrease of 8.3% to 2.3 million long-term re-entries from the United States.

A monthly analysis of Canadian residents returning from countries other than the United States reveals an increase in January of 1% but a decrease of 3% and 2% respectively in February and March.

baissé de 5.5% au cours du premier trimestre de 1979 en s'établissant à 1.0 million. Une ventilation de ce trafic révèle que le nombre d'automobilistes a diminué de 8.7% alors que le trafic autre que l'automobile a accusé une légère hausse de 0.5%.

L'éclipse totale de soleil qui a eu lieu à la fin de février dans la plupart des états du nord des États-Unis, dans le sud du Manitoba et le nord de l'Ontario a été un événement qui a affecté les habitudes de voyage entre le Canada et les États-Unis. Grâce à cet événement, le Manitoba a reçu 5% de plus de visiteurs des États-Unis, mettant fin ainsi aux baisses mensuelles du trafic des États-Unis qui étaient devenues monnaie courante dans cette province au cours des quelques dernières années. Les voyages d'une nuit ou plus par automobile et autocar ont enregistré les meilleures augmentations (17% et 54% respectivement) au cours de février.

Le nombre de voyageurs non résidents en provenance de pays autres que les États-Unis a continué à augmenter substantiellement au cours du premier trimestre de 1979. Les visiteurs en provenance de ces pays, excluant ceux qui sont restés moins de vingt-quatre heures, ont connu une hausse de 6.5% pour s'établir à 131,000. Parmi les principaux pays générateurs de touristes, les arrivées en provenance du Japon, qui est notre marché le plus florissant, ont augmenté de 30.5% (14,000), celles de la France ont progressé de 17.7% (9,000), du Royaume-Uni de 5.5% (30,000) et de l'Allemagne de l'Ouest de 2.4% (13,000). Sur une base continentale, 86,000 visiteurs sont venus d'Europe, soit 3.8% de plus, 29,000 d'Asie, une augmentation de 24.6%, et 8,000 de l'Australie continentale, soit 11.5% de plus que le premier trimestre de 1978.

#### Voyageurs résidents revenant au Canada

Au cours du premier trimestre de 1979, le nombre de Canadiens revenant des États-Unis a baissé de 8.3% pour s'établir à 6.9 millions. Les résidents revenant des autres pays ont aussi diminué (1.3%) en totalisant 537,000. La valeur du dollar canadien peut expliquer en partie cette diminution dans les voyages à l'étranger, mais les climats chauds demeurent une attraction de premier ordre pour plusieurs Canadiens en hiver.

Durant les trois premiers mois de 1979, les rentrées par automobile des résidents canadiens revenant des États-Unis ont totalisé 5.6 millions, soit une diminution de 10.7%. Les voyages par automobile des résidents revenant le même jour et de ceux ayant demeuré une nuit ou plus ont connu des baisses respectives de 8.6% et 18.2% dans le trimestre qui ont été le résultat de diminutions enregistrées dans chacun des mois du trimestre. Les augmentations qu'a connu le trafic du même jour par autocar en janvier et mars n'ont pas été assez importantes pour contrebalancer la baisse de 11.8% qui a eu lieu en février. Les voyages d'une nuit ou plus par autocar ont diminué dans chacun des trois premiers mois de 1979 pour contribuer ainsi à une chute de 15.3% dans ce trafic pour le trimestre.

Les voyages par avion des résidents canadiens ont totalisé 1.0 million, soit une hausse de 7.4%, au cours du premier trimestre. Des hausses ont été enregistrées dans chacun des mois du trimestre continuant ainsi la croissance des voyages par avion qui avait été constaté auparavant.

Les rentrées de résidents canadiens ayant eu un séjour prolongé se sont chiffrées à 2.8 millions au cours du premier trimestre de 1979, soit une diminution de 7.1%. Les voyages à long terme par automobile aux États-Unis ont baissé de 18.2% alors que les voyages d'une nuit ou plus par les autres moyens de transport ont augmenté de 4.3%. Conséquemment, les rentrées de voyages aux États-Unis après un séjour prolongé ont baissé de 8.3% pour se chiffrer à 2.3 millions.

Une analyse mensuelle des résidents canadiens revenant de pays autres que les États-Unis révèle une augmentation de 1% en janvier, mais des baisses de 3% et 2% respectivement en février et mars.

## METHOD OF COLLECTION

The statistics published in this report provide measures of international traveller flows across Canada's frontier.

The surveys cover non-residents entering Canada and residents returning to Canada from the United States and other countries at land, air and sea points of entry.

The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

All travellers who clear customs are recorded by Customs' officers on the documents listed below:

**E62 Entry Tally** — To record travellers by land and car ferry at ports of entry on the United States-Canada border. This count of United States and Canadian travellers is done on a full census basis except for seven points of entry where sampling techniques are used linked to toll counts to provide estimates of traffic categories. The sample consists of systematically selecting 25% of the days of the year and conducting a census of travellers on each of the selected days.

**E63 Private Craft and Passenger Arrivals** — To record on a census basis travellers entering Canada by private plane and boat, commercial freighters, passenger ferries and excursion cruises.

**E64 Referral Card** — to record on a census basis travellers entering Canada in commercial planes and boats including charter and cruise arrivals.

All the above forms are sent directly to the International Travel Section in Statistics Canada for processing, summary and publication. Documents are registered, sorted, edited and captured on a mini-computer system.

Data on expenditures of travellers produced in Table 1 are derived from questionnaire sample surveys. Detailed methods and definitions are described in publication 66-201, Annual, "Travel Between Canada and Other Countries".

## Definition of Terms

**International Traveller** — The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

**Non-resident traveller** — An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

## MÉTHODE DE COLLECTE

Cette publication présente la statistique sur les mouvements voyageurs internationaux traversant les frontières canadiennes.

L'enquête couvre les non résidents entrant au Canada et résidents revenant au Canada après un voyage aux États-Unis et dans autres pays aux différents points d'entrée (terre, air et mer).

Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'œuvre et de l'Immigration et responsables des postes de péage dans tout le Canada.

Tous les voyageurs qui passent à la douane sont inscrits par douaniers sur les documents décrits ci-après:

**E62 Feuille de pointage des arrivées** — Sert au dénombrement voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis — Canada. Il s'agit habituellement d'un dénombrement intégral, sauf pour sept points d'entrée où on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage pour estimer les catégories de trafic. L'échantillon représente un dénombrement systématique de 25% des jours de l'année au cours duquel on conduit un dénombrement intégral des voyageurs.

**E63 Arrivées d'aéronefs et de navires particuliers et de les passagers** — Sert au dénombrement intégral des voyageurs arrivant au Canada en avion ou en bateau particulier, à bord de cargos, de traversiers et de navires de croisière.

**E64 Referral Card** — Sert au dénombrement intégral de voyageurs arrivant au Canada par avion et bateau commercial, y compris par ferry et par bateau de croisière.

Toutes ces formules sont envoyées directement à la section voyages internationaux de Statistique Canada pour l'exploitation, la mise en sommaire et publication. Les documents sont enregistrés, triés, vérifiés et captés par un système de mini-ordinateur.

Les données sur les dépenses des voyageurs reproduites au Tableau 1 sont dérivées d'enquêtes par sondage. La publication annuelle "Voyages entre le Canada et les autres pays" no. 66-201 au catalogue, donne des détails sur les définitions et méthodes employées dans ces enquêtes.

## Définitions des termes

**Voyageur international** — Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour une journée" sont exclus des catégories voyageurs non résidents et voyageurs résidents les autres répondent à peu près à la définition internationale "touriste".

**Voyageur non résident** — Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire.
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou émetteurs.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

**Resident Traveller** — An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

**Other Travellers** — A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

**Land** — Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

**Air** — Commercial and charter services and private plane.

**Marine** — Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on freighters.

**Other Methods** — Pedestrians, bicycle, motorcycle, etc.

**Direct to Canada** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

**Via the United States** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in The Southern United States who travels to the Caribbean would be counted as returning via the United States.

**Countries Other than the United States** — This designation includes all countries other than Continental United States, Alaska and Hawaii.

**Voyageur résident** — Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qui ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

**Autres voyageurs** — Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure.
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

**Par terre** — En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

**Par air** — Services commerciaux, vols nolisés et avions particuliers.

**Par eau** — Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

**Autres moyens** — À pied, à bicyclette, en motocyclette, etc.

**Directement au Canada** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

**Via les États-Unis** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance; il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois; comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant aux pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

**Pays autres que les États-Unis** — Cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii.

Les séries disponibles peuvent être trouvées dans les matrices suivantes à partir de 1972 jusqu'à ce jour, par mois:

- A. Nombre de voyageurs internationaux entrant et retournant au Canada, selon le moyen de transport.
- B. Nombre de voyageurs non résidents entrant au Canada, selon certains pays de résidence. (n'inclut pas les É.-U.)
- C. Nombre de véhicules voyageant entre le Canada et les États-Unis.

In the first half of 1979, non-residents entering Canada numbered 12.8 million, down 0.3% from last year. Returning Canadian residents totalled 16.8 million, a decrease of 6.6% over the first six months of 1978. Immigrants, military personnel, diplomats and crews who are excluded from the above figures accounted for 2.0 million entries, up 5.7% from 1978. In total, during the first six months of 1979, entries and re-entries by all visitors numbered 31.6 million, a decrease of 3.4% over 1978.

Preliminary estimates for the first six months of 1979 show that Canada earned \$945 million from international travel, up 12.9% from 1978. During the same period, Canadians travelling abroad increased their payments by 1.7% to \$2,214 million, leaving the international travel account with a deficit of \$1,269 million compared to \$1,341 million in 1978.

In the second quarter of 1979 Canada registered an estimated deficit of \$348 million, down from last year's \$418 million. A strong gain in receipts from countries other than the United States to \$269 million was the main contributor to the improvement while receipts from United States visitors reached an estimated \$433 million. Payments by Canadians abroad were estimated at \$695 million in the United States and at \$355 million in all other countries.

#### Non-resident Travellers Entering Canada

During the first half of 1979, 12.1 million residents of the United States entered Canada, 1.3% below last year. Offsetting some of the decline in auto travel were increases in the one or more nights bus category (3.8%), total plane (8.8%), train (4.8%) and other methods travel (3.8%). The number of visitors from countries other than the United States continued to increase for the first six months of 1979 to 718,000, up 21.6% over 1978.

In the second quarter of 1979, travel by United States residents decreased by 2.0% to 8.0 million entries. Decreases in all types of automobile travel as well as same day bus and total boat travel were responsible for the total decrease in United States entries. All categories of automobile and same day bus travel decreased by three percent in the second quarter of this year.

The Easter holiday in April of this year resulted in a substantial monthly gain (8.1%) in one or more nights automobile travel by United States residents. This increase as well as strong performances in plane, train, boat and other entries produced a 2.3% growth in the total number of United States visitors. The gasoline situation in the United States during the last two months of the quarter contributed towards less automobile traffic from the south and therefore a drop in total entries of 6.3% and 1.0% in May and June respectively.

Long-term traffic from the United States (including overnight or longer auto and bus travel and all plane, boat and train entries) decreased by less than one percent for the second quarter. Overnight automobile entries decreased in the quarter by 3.2% while non-automobile long-term entries increased by 5.1%. These trends may be partially explained by the gasoline shortages which occurred during this time in the United States.

The number of non-resident travellers from countries other than the United States continued to rise sharply in the second quarter of 1979. Visitors from these countries, excluding those who stayed less

Au cours de la première moitié de 1979, il y a eu 12.8 millions de voyageurs non-résidents qui sont entrés au Canada, soit une diminution de 0.3% par rapport à l'an dernier. Le nombre de résidents canadiens revenant au pays a diminué de 6.6% comparativement aux six premiers mois de 1978 totalisant 16.8 millions. Les immigrants, le personnel militaire, les diplomates et les équipages, exclus des chiffres ci-dessus, ont atteint 2.0 millions, soit une augmentation de 5.7% en comparaison avec 1978. En tout, au cours des six premiers mois de 1979, il y a eu 31.6 millions d'entrées et de rentrées, ce qui représente une baisse de 3.4% par comparaison à 1978.

Les estimations provisoires pour les six premiers mois de 1979 révèlent que les voyages internationaux ont rapporté \$945 millions au Canada, soit une augmentation de 12.9% par rapport à 1978. Au cours de la même période, les Canadiens en voyage à l'étranger ont accru leurs paiements de 1.7% pour atteindre \$2,214 millions. Conséquemment, le compte des voyages internationaux a accusé un déficit de \$1,269 millions en comparaisons à \$1,341 millions en 1978. m

Durant le deuxième trimestre de 1979, le Canada a enregistré un déficit estimé à \$348 millions comparativement à \$418 millions l'année dernière. Les recettes des visiteurs en provenance des pays autres que les États-Unis ont accusé un gain appréciable en atteignant \$269 millions et ont été le facteur principal dans l'amélioration du déficit alors que les recettes venant des visiteurs américains ont atteint \$433 millions. Les paiements des Canadiens sur les voyages ont été estimés à \$695 millions aux États-Unis et à \$355 millions dans tous les autres pays.

#### Voyageurs non résidents entrant au Canada

Lors de la première moitié de 1979, il y a eu 12.1 millions de résidents américains qui sont entrés au Canada, soit 1.3% de moins que l'an dernier. Les augmentations qu'ont connues le trafic d'une nuit ou plus par autocar (3.8%), les voyages par avion (8.8%), par train (4.8%), et par d'autres moyens (3.8%) ont compensé quelque peu pour la diminution enregistrée dans les voyages par automobile. Le nombre de visiteurs provenant des autres pays a continué à augmenter au cours des six premiers mois de 1979 pour atteindre 718,000, ce qui représente une hausse de 21.6% par rapport à 1978.

Durant le deuxième trimestre de 1979, les voyages de résidents des États-Unis ont baissé de 2.0% à 8.0 millions d'entrées. Les diminutions dans toutes les catégories du trafic par automobile ainsi que dans le trafic du même jour par autocar et par bateau sont responsables pour la baisse générale dans les entrées venant des États-Unis. Au cours du deuxième trimestre de 1979, toutes les catégories de trafic par automobile et le trafic du même jour par autocar ont diminué de trois pour cent.

Le nombre de résidents des États-Unis voyageant par automobile et dont le séjour était d'une nuit ou plus a connu une hausse substantielle (8.1%) au cours du mois d'avril en raison de la fête de Pâques. Cette augmentation en plus de bonnes performances dans les entrées par avion, train, bateau et d'autres moyens a contribué à un gain de 2.3% dans le nombre total de visiteurs américains. L'incertitude quant à l'approvisionnement en gazoline aux États-Unis au cours des deux derniers mois du trimestre a contribué à une diminution dans le trafic par automobile en provenance du sud, ce qui a produit des baisses dans le nombre total d'entrées de 6.3% et 1.0% en mai et juin respectivement.

Le nombre de visiteurs des États-Unis entrant au Canada et séjournant une nuit ou plus (ce qui comprend les entrées par automobile et par autocar pour une nuit ou plus et toutes les entrées par avion, bateau et train) a baissé de moins d'un pour cent dans le deuxième trimestre. Les entrées d'une nuit ou plus par automobile ont diminué de 3.2% dans le trimestre alors que celles pour le trafic autre que l'automobile ont augmenté de 5.1%. Ces tendances peuvent s'expliquer en partie par la pénurie d'essence qui a sévi aux États-Unis durant cette période.

Le nombre de voyageurs non résidents en provenance de pays autres que les États-Unis a continué à augmenter substantiellement au cours du deuxième trimestre de 1979. Les visiteurs venant de ces pays,

than twenty-four hours, increased by 21.9% in the quarter to 482,000. For the first half of 1979, among Canada's major tourist generating countries, arrivals from Japan increased by 27.1% (45,000), West Germany by 21.8% (64,000), France by 20.6% (36,000) and the United Kingdom by 14.4% (163,000). On a continent basis for the first six months of 1979, visitors from Europe numbered 403,000 (up 16.2%), 99,000 came from Asia (a 24.8% increase) and 33,000 came from Oceania and other Islands (28.7% above last year).

## Resident Travellers Returning to Canada

In the first six months of 1979, the number of Canadian residents returning from the United States decreased by 6.8% to 15.8 million. Residents re-entering after visits to countries other than the United States also dropped, by 3.5% to 922,000. During this period, total re-entries by Canadian residents decreased by nearly 1.2 million (6.6%) to 16.7 million.

In the second quarter, the number of Canadian residents returning from trips to the United States declined in most modes of traffic and lengths of stay, producing a 5.5% decrease in total traffic. Decreases of over seven percent were recorded in both the same-day and one or more nights auto traffic, while long term bus re-entries were down by 5.6%. Quarterly increases were recorded in same-day and total bus traffic of 4.2% and 0.1% respectively while total plane travel grew by 16.6% in 1979.

Due to the Easter holiday in April, total Canadian re-entries from the United States were up by 0.8% to 3.0 million for the month. This growth in total traffic was due to increases in one or more nights auto and bus travel of 10.1% and 19.7% respectively, and a rise of 16.2% in total plane re-entries. In the final two months of the quarter, however, automobile and overnight bus travel decreased resulting in decline of 6.6% and 10.2% in total Canadian re-entries in May and June respectively. Only plane travel by Canadian residents, reflecting cheaper airfares and increased promotion, increased in each month of the second quarter.

Total long-term travel by Canadians in the second quarter of 1979 decreased by 1.6% to 2.7 million. Except for a growth in auto long-term traffic in April, due to Easter, overnight auto re-entries decreased in May and June; non-auto long-term travel increased in all months. These movements resulted in a decrease in total long-term travel by Canadian residents of 5.2% and 13.0% in May and June respectively.

A monthly analysis of Canadian residents returning from countries other than the United States reveals decreases in each month of the quarter. This resulted in a drop in traffic of 6.5% to 385,000 re-entries during the second quarter of 1979.

excluant ceux qui sont restés moins de vingt-quatre heures, ont connu une hausse de 21.9% pour s'établir à 482,000. Pour la première moitié de 1979, parmi les principaux pays générateurs de touristes pour le Canada, les arrivées en provenance du Japon ont augmenté de 27.1% (45,000), de l'Allemagne de l'Ouest de 21.8% (64,000), de la France de 20.6% (36,000) et du Royaume-Uni de 14.4% (163,000). Sur une base continentale, 403,000 visiteurs sont venus d'Europe, soit 16.2% de plus, 99,000 d'Asie, une augmentation de 24.8% et 33,000 d'Océanie et des autres îles océaniques, ce qui représente une hausse de 28.7% par rapport à l'année dernier.

## Voyageurs résidents revenant au Canada

Au cours des six premiers mois de 1979, le nombre de résidents canadiens revenant de voyages aux États-Unis a diminué de 6.8% pour s'établir à 15.8 millions. Les résidents revenant de visites dans d'autres pays a baissé de 3.5% totalisant 922,000. Durant cette période, le nombre total de rentrées des résidents canadiens a connu une baisse de près de 1.2 million (6.6%) s'élevant à 16.7 millions.

Lors du deuxième trimestre, le nombre de résidents canadiens revenant de voyages aux États-Unis a diminué dans la plupart des genres de trafic et durées de séjour alors que le trafic global accusait une baisse de 5.5%. Les trafics d'une nuit ou plus et du même jour par automobile ont enregistré des pertes de plus de sept pour cent chacun, alors que les rentrées à long terme par autocar ont perdu 5.6%. Sur une base trimestrielle, les trafics du même jour et global par autocar ont augmenté de 4.2% et 0.1% respectivement alors que les voyages par avion ont progressé de 16.6% en 1979.

En raison de la fête de Pâques, les rentrées totales des Canadiens revenant de voyages aux États-Unis se sont élevées à 3.0 millions au mois d'avril, soit 0.8% de plus qu'en 1978. Cette augmentation du trafic total a été causée par des hausses respectives de 10.1% et 19.7% dans les voyages d'une nuit ou plus par automobile et par autocar et d'un gain de 16.2% dans les rentrées totales par avion. Toutefois, au cours des deux derniers mois du trimestre, les voyages d'une nuit ou plus par automobile et par autocar ont diminué contribuant ainsi à des baisses respectives de 6.6% et 10.2% dans les rentrées de Canadiens en mai et en juin. Seul le trafic par avion, en raison de tarifs plus bas et d'une publicité accrue, a augmenté dans chacun des mois du trimestre.

Les rentrées de résidents canadiens avec un séjour d'au moins une nuit ont diminué de 1.6% durant le deuxième trimestre de 1979 s'établissant à 2.7 millions. Sauf pour une augmentation dans le trafic à long terme par automobile en avril en raison de Pâques, les rentrées d'une nuit ou plus par automobile ont baissé en mai et en juin; le trafic autre que l'automobile dont le séjour comportait au moins une nuit s'est accru dans tous les mois. Ainsi, le nombre de résidents canadiens revenant d'un voyage d'au moins une nuit a accusé des baisses respectives de 5.2% et 13.0% en mai et juin.

Une analyse mensuelle des résidents canadiens revenant de pays autres que les États-Unis révèle des baisses dans chacun des mois du trimestre. Ainsi, les 385,000 rentrées du deuxième trimestre de 1979 représentent une diminution du trafic de 6.5%.

## METHOD OF COLLECTION

The statistics published in this report provide measures of international traveller flows across Canada's frontier.

The surveys cover non-residents entering Canada and residents returning to Canada from the United States and other countries at land, air and sea points of entry.

The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

All travellers who clear customs are recorded by Customs' officers on the documents listed below:

**E62 Entry Tally** — To record travellers by land and car ferry at ports of entry on the United States-Canada border. This count of United States and Canadian travellers is done on a full census basis except for seven points of entry where sampling techniques are used linked to toll counts to provide estimates of traffic categories. The sample consists of systematically selecting 25% of the days of the year and conducting a census of travellers on each of the selected days.

**E63 Private Craft and Passenger Arrivals** — To record on a census basis travellers entering Canada by private plane and boat, commercial freighters, passenger ferries and excursion cruises.

**E64 Referral Card** — to record on a census basis travellers entering Canada in commercial planes and boats including charter and cruise arrivals.

All the above forms are sent directly to the International Travel Section in Statistics Canada for processing, summary and publication. Documents are registered, sorted, edited and captured on a mini-computer system.

Data on expenditures of travellers produced in Table 1 are derived from questionnaire sample surveys. Detailed methods and definitions are described in publication 66-201, Annual, "Travel Between Canada and Other Countries".

For further information please contact Mr. Mike Valiquette, Chief, International Travel Section, Statistics Canada, Ottawa, K1A 0T6 (613-995-0847).

## Definition of Terms

**International Traveller** — The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

**Non-resident traveller** — An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

## MÉTHODE DE COLLECTE

Cette publication présente la statistique sur les mouvements de voyageurs internationaux traversant les frontières canadiennes.

L'enquête couvre les non résidents entrant au Canada et les résidents revenant au Canada après un voyage aux États-Unis et dans les autres pays aux différents points d'entrée (terre, air et mer).

Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'œuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Tous les voyageurs qui passent à la douane sont inscrits par les douaniers sur les documents décrits ci-après:

**E62 Feuille de pointage des arrivées** — Sert au dénombrement de voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis — Canada. Il s'agit habituellement d'un dénombrement intégral, sauf pour sept points d'entrée où on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage pour estimer les catégories de trafic. L'échantillon représente un dénombrement systématique de 25% des jours de l'année au cours desquels on conduit un dénombrement intégral des voyageurs.

**E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers** — Sert au dénombrement intégral des voyageurs arrivant au Canada en avion ou en bateau particulier, à bord de cargos, de traversiers et de navires de croisière.

**E64 Referral Card** — Sert au dénombrement intégral de voyageurs arrivant au Canada par avion et bateau commercial, y compris par voilier et par bateau de croisière.

Toutes ces formules sont envoyées directement à la section des voyages internationaux de Statistique Canada pour l'exploitation, la mise en sommaire et publication. Les documents sont enregistrés, triés, vérifiés et captés par un système de mini-ordinateur.

Les données sur les dépenses des voyageurs reproduites au Tableau 1 sont dérivées d'enquêtes par sondage. La publication annuelle "Voyages entre le Canada et les autres pays" no. 66-201 au catalogue, donne des détails sur les définitions et méthodes employées dans ces enquêtes.

Pour plus d'information, veuillez communiquer avec M. Mike Valiquette, chef de la section des voyages internationaux, Statistique Canada, Ottawa, K1A 0T6 (613-995-0847).

## Définitions des termes

**Voyageur international** — Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories voyageurs non résidents et voyageurs résidents les autres répondent à peu près à la définition internationale de "touriste".

**Voyageur non résident** — Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire.
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou emplettes.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

**Resident Traveller** — An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

**Other Travellers** — A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

**Land** — Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

**Air** — Commercial and charter services and private plane.

**Marine** — Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on freighters.

**Other Methods** — Pedestrians, bicycle, motorcycle, etc.

**Direct to Canada** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

**Via the United States** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in The Southern United States who travels to the Caribbean would be counted as returning via the United States.

**Countries Other than the United States** — This designation includes all countries other than Continental United States, Alaska and Hawaii.

**Voyageur résident** — Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qui ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

**Autres voyageurs** — Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure.
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

**Par terre** — En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

**Par air** — Services commerciaux, vols nolisés et avions particuliers.

**Par eau** — Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

**Autres moyens** — À pied, à bicyclette, en motocyclette, etc.

**Directement au Canada** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

**Via les États-Unis** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance; il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois; comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant aux pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

**Pays autres que les États-Unis** — Cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii.

Travel trends in the summer of 1979 turned out to be an enigma for the tourist industry in Canada. A decrease in the number of tourists from the United States hurt some areas while other locations benefited from increased domestic and overseas tourism. In the third quarter of 1979, non-resident travellers entering Canada numbered 14.2 million down 3.6% over 1978; a decrease of 5 percent from the United States being partly offset by a 22 percent increase on overseas visitors. Canadian residents returning from international trips decreased by 13.1% to 11.7 million; a 14 and 2 percent drop from the United States and other countries respectively. Immigrants, military personnel, diplomats and crews who are excluded from the above calculations accounted for 1.1 million, up by less than one percent over 1978. In total, 27.0 million border crossings were recorded in the third quarter of 1979, 7.8% less than last year.

On a year-to-date basis, 27.1 million non-residents entered Canada, a decrease of 2.1% while 18.5 million re-entries by Canadians were recorded, a drop of 9.4% over the first three quarters of 1978. Other travellers numbered 3.1 million in the first nine months, an increase of 3.9% over 1978.

Preliminary estimates for the third quarter of 1979 indicate that Canada earned \$1,385 million from international travel, up 18.8% from the same period last year. Receipts from the United States totalled \$904 million, up 8.7%, while receipts from visitors from all other countries jumped to \$481 million from \$334 million.

Payments on travel by Canadian residents were estimated at \$1,079 million in the third quarter, 9.6% less than in 1978. Payments to the United States decreased by 14.0% to \$600 million while those to all other countries declined by 3.4% to \$479 million. As a result, a surplus of \$306 million was recorded in the third quarter, the first one since 1976. On the United States account, the surplus recorded in this quarter was the largest one since 1967 while the overseas account, which is traditionally in a deficit position, is in balance this year.

For the first nine months of 1979, receipts from international travel reached \$2,380 million while payments attained \$3,214 million, resulting in a deficit of \$834 million, considerably below the \$1,368 million in 1978, and the \$1,314 million recorded in 1977.

Changes in travel patterns and average expenditures have been sharp and to some extent unpredictable in 1979 due to the mixed impact of such events as fluctuating exchange rates, periodic gasoline shortages in the United States, differing ratio of price changes in major tourist centres, and the increased exemption from customs duties on goods purchased by U.S. residents while travelling outside the country.

#### Non-resident Travellers Entering Canada

During the third quarter, 13.2 million United States' residents entered Canada, down 5.1% from 1978. Visitors from countries other than the United States increased by 21.7% to 998,000. The growth in the overseas travel market was insufficient to offset the decrease in United States' visitors so that total non-resident entries dropped by 3.6% to 14.2 million between July and September.

Gasoline shortages and higher prices in the United States directly affected U.S. residents' travel plans to Canada in 1979. For the first quarter, same-day automobile entries by United States

Au cours de l'été de 1979, les tendances de voyage se sont avérées une énigme pour l'industrie touristique du Canada. La diminution dans le nombre de touristes venant des États-Unis a nui à certaines régions, alors que d'autres ont bénéficié d'une augmentation du tourisme intérieur et d'outremer. Durant le troisième trimestre de 1979, le nombre de voyageurs non résidents entrant au Canada a atteint 14.2 millions, soit 3.6% de moins qu'en 1978; la baisse de 5 pour cent dans le nombre de résidents américains étant partiellement contrecarrée par une hausse de 22 pour cent dans le nombre de visiteurs venant de tous les autres pays. Des baisses respectives de 14 et 2 pour cent dans le nombre de Canadiens revenant des États-Unis et d'autres pays ont contribué à une réduction globale de 13.1% alors que 11.7 millions de résidents canadiens sont revenus de voyages à l'étranger. Les immigrants, le personnel militaire, les diplomates et les équipages, exclus des chiffres ci-dessus, ont atteint 1.1 million, soit une augmentation inférieure à un pour cent par rapport à 1978. En tout, il y a eu 27.0 millions d'entrées et de reentrées durant le troisième trimestre de 1979, soit 7.8% de moins que l'année dernière.

Depuis le début de l'année, le Canada a enregistré 27.1 millions d'entrées de non résidents, soit 2.1% de moins qu'au cours des trois premiers trimestres de 1978, alors qu'il y a eu 18.5 millions de reentrées, soit une diminution de 9.4% par rapport à la même période en 1978. Les autres voyageurs ont totalisé 3.1 millions, ce qui représente une augmentation de 3.9% comparativement à 1978.

Les estimations provisoires pour le troisième trimestre de 1979 révèlent que les voyages internationaux ont rapporté \$1,385 millions au Canada, soit une augmentation de 18.8% par rapport à la même période l'an dernier. Les recettes en provenance des États-Unis se sont chiffrées à \$904 millions, soit 8.7% de plus, alors que celles provenant des visiteurs de tous les pays ont bondi de \$334 millions à \$481 millions.

Les dépenses des Canadiens à l'étranger ont été estimées à \$1,079 millions pour le troisième trimestre, soit 9.6% de moins qu'en 1978. Les dépenses faites aux États-Unis se sont chiffrées à \$600 millions (-14%) alors que celles faites dans les autres pays ont diminué de 3.4% pour s'établir à \$479 millions. Conséquemment, le compte des voyages internationaux a enregistré un surplus de \$306 millions, le premier depuis 1976. En ce qui concerne notre balance avec les États-Unis, le surplus du troisième trimestre est le plus élevé depuis 1967 (Expo) alors que le compte avec les autres pays, qui est habituellement en déficit, est en équilibre cette année.

Depuis le début de l'année, les recettes en provenance des voyages internationaux s'élèvent à \$2,380 millions alors que les paiements ont atteint \$3,214 millions, résultant en un déficit de \$834 millions, ce qui est tout de même bien en-dessous du déficit de \$1,368 millions en 1978 et de celui de \$1,314 millions en 1977.

En 1979, les changements dans les habitudes de voyage et dans les dépenses moyennes ont été vifs et jusqu'à un certain point imprévisibles en raison de l'impact différent d'événements tels: les fluctuations du taux de change, les pénuries d'essence périodiques aux États-Unis, les changements de prix fluctuant d'un centre touristique à l'autre et des nouvelles exemptions sur les droits de douane dont les Américains jouissent alors qu'ils reviennent de voyages à l'étranger.

#### Voyageurs non résidents entrant au Canada

Lors du troisième trimestre, il y a eu 13.2 millions de résidents américains qui sont entrés au Canada, soit 5.1% de moins que l'an dernier. Le nombre de visiteurs provenant des autres pays a augmenté de 21.7% pour atteindre 998,000. Cette augmentation n'a toutefois pas été suffisante pour contrecarrer la diminution du nombre de résidents américains alors que le nombre total d'entrées de non résidents a baissé de 3.6% en s'établissant à 14.2 millions de juillet à septembre.

Les pénuries d'essence et les prix plus élevés aux États-Unis ont eu un effet certain sur les plans de voyages des résidents américains au Canada en 1979. Au cours du premier trimestre, les Américains qui sont entrés et

residents remained stable while overnight automobile travel decreased by 9 percent. The switch in the Easter holiday from March in 1978 to April in 1979 only partially explains this decline in long-term automobile entries from the south. Both same-day and overnight automobile travel decreased during the second quarter of 1979 at a time when gas lines were at their longest in the United States. During the third quarter, same-day automobile travel increased slightly (0.2%) while overnight automobile entries decreased substantially (16.5%). These automobile travel patterns clearly reflected the localized gasoline shortages. United States residents living close to the border were able to enter Canada to buy gas, hence the fairly stable pattern of same-day automobile travel. On the other hand, automobile tourist traffic from the south was adversely affected by the shortages, especially in the third quarter when it fell by 16.5%.

Non-automobile travel by United States residents also reflected the confused gasoline situation during 1979. United States residents entering Canada by plane increased by 3 per cent in the first quarter and by 13 per cent in the second and third quarters. Both long and short-term bus entries by United States residents decreased in the first quarter of this year, but by the second quarter overnight travel by bus recorded an 8 per cent increase. Strong performances in August and September produced a 3 and 6 percent increase in same-day and overnight bus entries respectively in the third quarter of 1979.

As previously mentioned, overnight automobile entries by United States residents has decreased in each quarter of 1979. Long-term non-automobile travel which includes overnight bus counts, and total plane, train and boat tallies, increased in each quarter for a nine month gain of 3.4%. In total, long-term entries from the United States, heavily weighted by automobile traffic, are down 7.7% this year-to-date.

The number of non-resident travellers from countries other than the United States continued to increase in the third quarter of 1979. This growth in the overseas market has been generally attributed to the strong currency conditions in a number of countries -- particularly the yen, mark and pound -- increased promotion and an extended range of travel opportunities in Canada. Visitors from these countries, excluding those who stayed less than twenty-four hours, increased by 21.7% to 842,000 in the third quarter of 1979. For the first three quarters of 1979, among Canada's major tourist generating countries, arrivals from West Germany increased by 29.9% (164,000), France by 21.0% (93,000), the United Kingdom by 19.9% (406,000) and Japan by 17.1% (103,000). On a continent basis, for the first nine months of 1979, visitors from Europe numbered 969,000 (up 21.6%), 228,000 came from Asia (a 19.5%) and 64,000 arrived from Oceania and other Islands (11.4% above 1978).

#### Resident Travellers Returning to Canada

During the third quarter of 1979, 11.2 million Canadian residents returned from visits to the United States, 13.6% fewer than the same period last year. Canadians re-entering from countries other than the United States declined by 1.7% to 547,000. In total, during the July-September period, 11.7 million Canadian residents returned after a trip outside the country, 13.1% down from 1978.

As one would expect, the shortage of gasoline in the United States has a dramatic effect on automobile travel there by Canadians. Substantial decreases were recorded in both same-day and overnight automobile travel. During the third quarter, same-day automobile

sortis le même jour par automobile sont demeurés stables alors que ceux ayant séjourné au moins une nuit et qui sont venus par automobile ont diminué de 9 pour cent. Cette baisse dans le nombre d'entrées à séjour prolongé par automobile peut être partiellement expliquée par le fait que Pâques a été célébrée en avril cette année alors qu'elle l'avait été en mars en 1978. Les voyages du même jour et d'au moins une nuit par automobile ont tous les deux diminué au cours du deuxième trimestre de 1979 à moment où les lignes d'attente aux pompes aux États-Unis étaient les plus longues. Durant le troisième trimestre, les voyages du même jour par automobile ont augmenté légèrement (0.2%) alors que les entrées par automobile pour un séjour d'au moins une nuit ont connu une baisse substantielle (16.5%). Ces tendances des voyages par automobile reflètent clairement les pénuries d'essence localisées. Les résidents américains demeurant près des frontières ont pu venir au Canada acheter de l'essence expliquant ainsi la stabilité relative du trafic du même jour par automobile. Cependant, le trafic à séjour prolongé par automobile en provenance du sud a été affecté par ces pénuries, spécialement au cours du troisième trimestre alors qu'il a subi une baisse de 16.5%.

Les voyages par les moyens autres que l'automobile par les résidents des États-Unis ont aussi reflété la situation confuse dans l'approvisionnement en essence au cours de 1979. En effet, le nombre de résidents américains qui sont venus au Canada en avion a augmenté de 3 pour cent dans le premier trimestre et de 13 pour cent dans les deuxième et troisième trimestres. Les entrées à court et à long terme par autobus des résidents américains ont diminué durant le premier trimestre de cette année mais, au second trimestre, les voyages à séjour prolongé par autocar ont augmenté de 8 pour cent. Durant le troisième trimestre, il y a eu des hausses respectives de 3 et 6 pour cent dans les entrées à court terme et à séjour prolongé par autocar grâce à de bonnes performances en août et en septembre.

Comme il a déjà été mentionné, les entrées d'une nuit ou plus par automobile des Américains ont baissé dans chacun des trimestres de 1979. Les voyages à séjour prolongé par d'autres moyens que l'automobile (ce qui comprend les entrées pour une ou plusieurs nuits par autocar et toutes celles par avion, bateau et train) ont augmenté dans chaque trimestre réalisant ainsi un gain de 3.4% pour les neuf mois. Au total, les entrées pour une nuit ou plus en provenance des États-Unis, dont la plus importante catégorie est le trafic par automobile, ont diminué de 7.7% cette année.

Le nombre de voyageurs non résidents en provenance de pays autres que les États-Unis a continué à augmenter au cours du troisième trimestre de 1979. Cette croissance du marché d'outremer a été attribuée principalement à la fermeté de la monnaie de certains pays (la livre, le mark et le yen en particulier), à une publicité accrue et à un plus grand choix de voyages au Canada. Les visiteurs venant de ces pays, excluant ceux qui sont restés moins de vingt-quatre heures, ont connu une hausse de 21.7% pour s'établir à 842,000 durant le troisième trimestre de 1979. Pour les neuf premiers mois de 1979, parmi les principaux pays générateurs de touristes pour le Canada, les arrivées en provenance de l'Allemagne de l'Ouest ont augmenté de 29.9% (164,000), de la France de 21.0% (93,000), du Royaume-Uni de 19.9% (406,000) et du Japon de 17.1% (103,000). Sur une base continentale, 969,000 visiteurs sont venus d'Europe, soit 21.6% de plus, 228,000 d'Asie, une augmentation de 19.5%, et 64,000 d'Océanie et des autres îles océaniques, ce qui représente une hausse de 11.4% par rapport à 1978.

#### Voyageurs résidents revenant au Canada

Au cours du troisième trimestre de 1979, il y a eu 11.2 millions de Canadiens qui sont revenus de visites aux États-Unis, soit 13.6% de moins qu'au cours de la même période de l'an dernier. Ceux qui sont rentrés de voyages dans les autres pays ont totalisé 547,000, soit une diminution de 1.7%. Au total, il y a eu 11.7 millions de Canadiens qui sont revenus de voyages à l'étranger, ce qui représente une diminution de 13.1% par rapport à la période couvrant de juillet à septembre 1978.

Comme l'on pouvait s'y attendre, la pénurie d'essence qui a sévi aux États-Unis a eu un effet dramatique sur les voyages par automobile des Canadiens vers le Sud. Des diminutions importantes ont eu lieu dans les voyages du même jour et à séjour prolongé par automobile. Au cours du

re-entries declined by 15.9% in July, 6.6% in August but only by 1.3% in September for a quarterly drop of 9.0%. Overnight returns followed a similar pattern with July's traffic down 36.3%, August 28.3%, September 9.9% and the quarter 28.3%. For the year-to-date, long-term automobile re-entries by Canadian residents are down one fifth from 1978.

Same-day bus travel by Canadian residents remained steady through the three quarters but overnight bus travel fell by 9.9%. Plane traffic continued to grow with increases in each quarter of the year and numbered 2.4 million for the first nine months, 11.6% above last year. In the third quarter, total re-entries by Canadians from the United States decreased by 21, 13 and 3 per cent in July, August and September respectively.

Total long-term travel by Canadians returning from the United States decreased by 12.8% in the first nine months of 1979. As noted, overnight automobile re-entries dropped by 20.9% while non-automobile overnight re-entries, which are dominated by plane travel, increased by 6.9% in the first three quarters of 1979. The number of Canadian residents returning from the United States declined in the third quarter of this year to a level below the rate recorded in the third quarter of 1974 - another "energy crisis" year. This year's decline was compounded by the depreciated Canadian dollar which is close to twenty percent below the exchange rate on the United States dollar offered in 1974.

An analysis of Canadian residents returning from countries other than the United States also reveals a decline in traffic. For the third quarter, re-entries from other countries numbered 547,000, down 1.7%. In the first three quarters of 1979, 1.5 million Canadian residents returned from overseas countries, 2.9% less than in 1978.

troisième trimestre, les rentrées du même jour par automobile ont baissé de 15.9% en juillet, 6.6% en août mais de seulement 1.3% en septembre donnant ainsi une baisse globale de 9.0% pour le trimestre. Les rentrées après un séjour d'une nuit ou plus ont connu des tendances semblables alors que le trafic de juillet a regressé de 36.3%, celui d'août de 28.3%, celui de septembre de 9.9% et celui du trimestre de 28.3%. Depuis le début de l'année, les rentrées après un séjour prolongé aux États-Unis accusent une baisse d'un cinquième par rapport à 1978.

Les voyages du même jour par autocar sont demeurés stables au cours des trois premiers trimestres, mais les voyages d'une ou plusieurs nuits par autocar ont connu une baisse de 9.9%. Le trafic par avion a continué à progresser alors qu'il y a eu des augmentations dans chaque trimestre pour atteindre 2.4 millions d'usagers pour les neuf premiers mois, soit 11.6% de plus que l'an dernier. Durant le troisième trimestre, il y a eu des diminutions respectives de 21, 13 et 3 pour cent en juillet, août et septembre dans le nombre total des rentrées des Canadiens revenant de voyages aux États-Unis.

Les rentrées de résidents canadiens avec un séjour d'au moins une nuit ont diminué de 12.8% durant les neuf premiers mois de l'année. Comme il a déjà été mentionné, les rentrées après un séjour prolongé par automobile ont baissé de 20.9% alors que celles par d'autres moyens que l'automobile, dont le trafic par avion constitue la majeure partie, ont augmenté de 6.9% au cours de la même période. Durant le troisième trimestre, le nombre de Canadiens revenant de voyages aux États-Unis a atteint un niveau inférieur à celui enregistré dans le troisième trimestre de 1974 lors de la première crise énergétique d'importance. La baisse de cette année doit en plus faire face à une dévaluation de près de vingt pour cent du dollar canadien comparativement au taux de change qui prévalait en 1974.

Une analyse du nombre de résidents canadiens revenant de pays autres que les États-Unis révèle aussi une diminution du trafic. Les rentrées de tous les pays ont totalisé 547,000 durant le troisième trimestre, soit 1.7% de moins qu'en 1978. Depuis le début de l'année, il y a eu 1.5 million de Canadiens qui sont revenus de voyages dans ces pays, ce qui représente une perte de 2.9% par rapport à 1978.

## METHOD OF COLLECTION

The statistics published in this report provide measures of international traveller flows across Canada's frontier.

The surveys cover non-residents entering Canada and residents returning to Canada from the United States and other countries at land, air and sea points of entry.

The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

All travellers who clear customs are recorded by Customs' officers on the documents listed below:

**E62 Entry Tally** — To record travellers by land and car ferry at ports of entry on the United States-Canada border. This count of United States and Canadian travellers is done on a full census basis except for seven points of entry where sampling techniques are used linked to toll counts to provide estimates of traffic categories. The sample consists of systematically selecting 25% of the days of the year and conducting a census of travellers on each of the selected days.

**E63 Private Craft and Passenger Arrivals** — To record on a census basis travellers entering Canada by private plane and boat, commercial freighters, passenger ferries and excursion cruises.

**E64 Referral Card** — to record on a census basis travellers entering Canada in commercial planes and boats including charter and cruise arrivals.

All the above forms are sent directly to the International Travel Section in Statistics Canada for processing, summary and publication. Documents are registered, sorted, edited and captured on a mini-computer system.

Data on expenditures of travellers produced in Table 1 are derived from questionnaire sample surveys. Detailed methods and definitions are described in publication 66-201, Annual, "Travel Between Canada and Other Countries".

### Definition of Terms

**International Traveller** — The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

**Non-resident traveller** — An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.

## MÉTHODE DE COLLECTE

Cette publication présente la statistique sur les mouvements des voyageurs internationaux traversant les frontières canadiennes.

L'enquête couvre les non résidents entrant au Canada et les résidents revenant au Canada après un voyage aux États-Unis et dans les autres pays aux différents points d'entrée (terre, air et mer).

Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'oeuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Tous les voyageurs qui passent à la douane sont inscrits par les douaniers sur les documents décrits ci-après:

**E62 Feuille de pointage des arrivées** — Sert au dénombrement des voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis — Canada. Il s'agit habituellement d'un dénombrement intégral, sauf pour sept points d'entrée où on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage pour estimer les catégories de trafic. L'échantillon représente un dénombrement systématique de 25% des jours de l'année au cours desquels on conduit un dénombrement intégral des voyageurs.

**E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers** — Sert au dénombrement intégral des voyageurs arrivant au Canada en avion ou en bateau particulier, à bord de cargos, de traversiers et de navires de croisière.

**E64 Referral Card** — Sert au dénombrement intégral de voyageurs arrivant au Canada par avion et bateau commercial, y compris par vol nolisé et par bateau de croisière.

Toutes ces formules sont envoyées directement à la section des voyages internationaux de Statistique Canada pour l'exploitation, la mise en sommaire et publication. Les documents sont enregistrés, triés, vérifiés et captés par un système de mini-ordinateur.

Les données sur les dépenses des voyageurs reproduites au Tableau 1 sont dérivées d'enquêtes par sondage. La publication annuelle "Voyages entre le Canada et les autres pays" no. 66-201 au catalogue, donne des détails sur les définitions et méthodes employées dans ces enquêtes.

### Définitions des termes

**Voyageur international** — Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories voyageurs non résidents et voyageurs résidents les autres répondent à peu près à la définition internationale de "touriste".

**Voyageur non résident** — Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire.

- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

**Resident Traveller** — An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

**Other Travellers** — A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

**Land** — Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

**Air** — Commercial and charter services and private plane.

**Marine** — Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on freighters.

**Other Methods** — Pedestrians, bicycle, motorcycle, etc.

**Direct to Canada** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

**Via the United States** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in The Southern United States who travels to the Caribbean would be counted as returning via the United States.

**Countries Other than the United States** — This designation includes all countries other than Continental United States, Alaska and Hawaii.

- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou emplettes.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

**Voyageur résident** — Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qui ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

**Autres voyageurs** — Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure.
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

**Par terre** — En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

**Par air** — Services commerciaux, vols nolisés et avions particuliers.

**Par eau** — Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

**Autres moyens** — À pied, à bicyclette, en motocyclette, etc.

**Directement au Canada** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

**Via les États-Unis** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance; il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois; comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant aux pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

**Pays autres que les États-Unis** — Cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii.

Les séries disponibles peuvent être trouvées dans les matrices suivantes à partir de 1972 jusqu'à ce jour, par mois:

- A. Nombre de voyageurs internationaux entrant et retournant au Canada, selon le moyen de transport.
- B. Nombre de voyageurs non résidents entrant au Canada, selon certains pays de résidence. (n'inclut pas les É.-U.)
- C. Nombre de véhicules voyageant entre le Canada et les États-Unis.

In 1979, preliminary figures show that 12.3 million non-resident tourists (those staying one night or longer) entered Canada, down 3.3% from 1978. For the same time period, 12.2 million Canadian residents re-entered the country from international trips of one or more nights, 9.6% less than last year. As a result, the 24.5 million tourists enumerated by Canada Customs in 1979 were 1.7 million (6.6%) fewer than the 1978 figure.

United States resident tourists decreased by 6.3% to 10.6 million in 1979. Auto tourists from the United States decreased by 10.4% to 7.8 million entries while non-automobile tourists numbered 2.8 million, 7.3% above 1978. Tourists from countries other than the United States increased by a substantial 18.7% during 1979 to 1.7 million. The number of Canadian tourists returning from visits to the United States numbered 10.4 million in 1979, down 10.6% from last year. Canadians re-entering by automobiles decreased by 18.0% to 6.8 million while those resident tourists returning by non-automobile modes numbered 3.6 million, up by 7.8% over 1978. Canadians returning from visits to countries other than the United States decreased by 2.9% during 1979 to 1.8 million.

Preliminary reports for the year indicate that in most provinces the decrease in the number of American tourists was more than offset by the growth in the number of overseas visitors and increased intra and inter-provincial travel by Canadians. During 1979, the travel patterns between Canada and the United States were directly affected by gasoline supply problems and increased gasoline prices in the United States during the first half of the year. Travel patterns between Canada and countries other than the United States were influenced by the reduced value of the Canadian dollar when compared to stronger currencies resulting in foreign travel becoming more expensive for Canadian residents while Canada as a destination for many overseas countries became cheaper and thus more attractive.

Preliminary estimates for 1979 show that Canada earned \$2,866 million from international travel while payments abroad amounted to \$3,963 million, resulting in a deficit of \$1,097 million compared with \$1,706 million in 1978.

Although the number of visitors from the United States fell slightly (1.3%), receipts increased to \$1,870 million from \$1,650 million in 1978. Receipts from other countries reached \$996 million in comparison with \$728 million last year as the number of visitors from these countries increased sharply (20.1%).

In 1979, payments by Canadians travelling to the United States fell to \$2,451 million (\$2,553 million in 1978), as 7.8% fewer Canadians visited the United States. Expenditures in all other countries amounted to \$1,512 million (\$1,531 million last year) as a smaller number of Canadians (2.9%) visited these countries.

### Non-resident Travellers Entering Canada

The total number of visitors from the United States decreased by 1.3% to 31.2 million entries. Although this is the sixth consecutive annual decline in the number of United States visitors to Canada, the actual decrease is only 406,000 less than in 1978. Total visitors from countries other than the United States surpassed the two million mark for the first time, an increase of 20.1% from 1978.

Over the year, total automobile traffic from the United States decreased by 2.0% to 26.4 million. Same day entries numbered 18.6 million for the year, 2.0% above 1978, while overnight or longer automobile entries decreased by 10.4% to 7.8 million. As previously

En 1979, les données préliminaires révèlent que le nombre total de touristes non résidents (i.e., ceux qui ont passé une nuit ou plus) qui sont venus au Canada s'est établi à 12.3 millions, soit 3.3% de moins qu'en 1978. D'autre part, le nombre de touristes du Canada revenant au pays a baissé de 9.6% en se chiffrant à 12.2 millions. Ainsi, les 24.5 millions de touristes qui ont été comptés par Douane Canada en 1979 sont moindres de 1.7 million (ou 6.6%) en comparaison avec 1978.

Il y a eu 10.6 millions de touristes américains qui sont venus au Canada en 1978, soit une diminution de 6.3%. Ceux venant en automobile se sont chiffrés à 7.8 millions, soit une baisse de 10.4%, alors que ceux utilisant les autres moyens de transport ont augmenté de 7.3% à 2.8 millions. Le nombre de touristes en provenance de pays autres que les États-Unis a connu une augmentation substantielle (18.7%) en s'établissant à 1.7 million. Le nombre de touristes canadiens revenant de voyages aux États-Unis a atteint 10.4 millions en 1979, soit 10.6% de moins que l'an dernier. Ceux revenant par automobile ont totalisé 6.8 millions, soit une baisse de 18.0%, alors que ceux revenant par d'autres moyens de transport ont augmenté de 7.8% à 3.6 millions. Les touristes canadiens qui sont revenus de pays autres que les États-Unis ont baissé de 2.9% à 1.8 million.

Selon des rapports préliminaires, la plupart des provinces ont connu une baisse dans le nombre de touristes américains, mais cette perte a toutefois été plus que contre-carrée par une augmentation dans le nombre de visiteurs d'autres pays, dans le nombre de résidents d'autres provinces et dans le nombre de résidents qui ont choisi de visiter leur propre province. Au cours de 1979, les habitudes de voyage entre le Canada et les États-Unis ont été directement affectées par les problèmes de disponibilité en essence et par l'augmentation des prix de l'essence aux États-Unis durant les six premiers mois. Les habitudes de voyage entre le Canada et les autres pays ont été influencées par la faible valeur du dollar canadien qui faisait qu'un voyage à l'étranger était plus dispendieux pour les Canadiens alors que le Canada devenait moins dispendieux et plus attrayant pour les visiteurs d'autres pays.

Les estimations préliminaires pour 1979 révèlent que les voyages internationaux ont rapporté \$2,866 millions au Canada alors que les paiements des Canadiens sur les voyages à l'étranger ont totalisé \$3,963 millions, résultant en un déficit de \$1,097 millions comparativement à \$1,706 millions en 1978.

Bien que le nombre de résidents américains ait légèrement diminué (1.3%), les recettes provenant de ces visiteurs ont atteint \$1,870 millions comparativement à \$1,650 millions en 1978. Les recettes des visiteurs venant des autres pays se sont établies à \$996 millions en comparaison avec \$728 millions l'an dernier alors que leur nombre a augmenté de façon significative (20.1%).

En 1979, les paiements faits par les Canadiens voyageant aux États-Unis ont chuté à \$2,451 millions (\$2,553 millions en 1978), alors qu'il y a eu 7.8% de moins de Canadiens voyageant aux États-Unis. Les dépenses faites dans les autres pays ont totalisé \$1,512 millions (\$1,531 millions l'an dernier) alors que 2.9% de moins de Canadiens les ont visités.

### Voyageurs non résidents entrant au Canada

Le nombre de résidents américains venus au Canada en 1979 a diminué de 1.3% pour s'établir à 31.2 millions. Quoique cette baisse soit la sixième en autant d'années, elle ne représente que 406,000 personnes de moins qu'en 1978. Les visiteurs en provenance de pays autres que les États-Unis ont brisé la barrière du deux millions pour la première fois, réalisant une augmentation de 20.1% par rapport à 1978.

Une analyse annuelle révèle que le trafic par automobile a baissé de 2.0% à 26.4 millions. Les entrées par automobile pour la journée seulement ont totalisé 18.6 millions en 1979, soit 2.0% de plus qu'en 1978, alors que le trafic automobile d'une nuit ou plus a diminué de 10.4% à 7.8 millions.

mentioned, automobile travel patterns from the south during 1979 were dramatically affected by gasoline shortages which occurred during April, May, June and July and the substantial increase in the cost of gasoline in the United States; overnight automobile entries from the United States decreased in nine of the 12 months in 1979. In the summer months, July and August, long-term automobile entries declined in every province resulting in overall decreases of 24.1% and 10.6% respectively. Associated with the gasoline shortages was a dramatic increase in the price of gasoline in the United States during 1979. As a result, gasoline now costs less in Canada than in the United States apart from the favourable exchange rate on U.S. funds. If allowances are made for the difference between exchange rates, the relative price of gasoline in Canada is reduced even more. This may have encouraged United States residents to come to Canada to purchase gasoline, a fact that is supported by the same-day automobile entry counts. Same-day automobile entries increased by 0.2% in the third quarter and 12.1% in the fourth quarter of 1979. A geographic analysis of the data reveals that the same-day automobile counts increased substantially in Southern Ontario and British Columbia, both areas with large population concentrations on both sides of the border.

Plane travel to Canada by 1.8 million United States residents indicated continued growth in 1979 - a trend characteristic of the Seventies. Year-over-year quarterly increases of 3%, 12%, 13% and 8% in the four quarters respectively, resulted in an annual growth of 10.2%. Total bus travel by residents of the United States increased by 2.9% in 1979 to 1.5 million. Both same-day and one or more nights bus travel increased by 0.3% and 5.4% respectively. During the year, total bus entries declined by 5.9% in the first quarter over the same period in 1978 but then grew by 1.7%, 4.8% and 7.4% in the last three quarters respectively. Travel by boat in 1979 decreased by 7.7% to 780,000, rail entries declined by 9.5% to 92,000 while travel by other methods, which includes pedestrians, motorcycles, bicycles and snowmobiles numbered 606,000, down by 1.3% from 1978.

Total visitors from countries other than the United States entered Canada in record numbers throughout 1979 reaching 2.0 million, 20.1% above 1978. Tourist entries from other countries (which excludes entries via the United States by land for less than 24 hours) increased by 18.7% to 1.7 million for the year. Province of entry data reveals that only three provinces, in terms of direct entries (Prince Edward Island, New Brunswick and Saskatchewan) recorded less overseas tourists this year. Among the top five tourist generating countries visitors from the United Kingdom increased by 17.7% (466,100); West Germany by 28.7% (184,100); Japan by 17.7% (122,700); France by 17.8% (108,300) and the Netherlands by 17.5% (89,800). On a continental scale, residents from Europe increased by 19.2%, Asian traffic increased by 19.5%, South American travel was 21.8% higher, African traffic rose by 7.0% while residents from continental Australia were 13.5% above 1978. Overseas tourists now represent 13% of the total foreign tourists to Canada, 2% higher than in 1978 and 8% above the 1972 proportion.

#### Resident Travellers Returning to Canada

In 1979, 34.4 million Canadian residents returned from visits to the United States, 7.8% less than in 1978. For the fourth consecutive year, the number of Canadians visiting the United States was larger than the number of United States residents entering Canada. However, the spread narrowed in 1979 to 3.2 million, down from the 5.7 million difference recorded in 1978. Canadian residents returning from countries other than the United States decreased by 2.8% to 1.8 million.

Comme on l'a déjà dit, les habitudes de voyage des automobilistes en provenance du sud de la frontière ont été affectées par les pénuries d'essence d'avril, mai, juin et juillet et par l'augmentation substantielle du prix de l'essence aux États-Unis; les entrées par automobile pour un séjour d'une nuit ou plus ont baissé dans neuf des 12 mois de 1979. Au cours des mois de juillet et d'août, les entrées de longue durée par automobile ont diminué dans chaque province, causant ainsi des baisses respectives de 24.1% et 10.6% au niveau national. En plus des pénuries d'essence, il y a eu une augmentation importante dans le prix de l'essence aux États-Unis en 1979. Conséquemment, sans prendre le taux de change en considération le gallon d'essence est maintenant moins dispendieux au Canada qu'aux États-Unis et, si l'on en tient compte, le prix relatif de l'essence au Canada devient encore moins dispendieux. Ceci a peut-être encouragé les résidents américains à venir au Canada pour acheter de l'essence. Cette théorie semble être confirmée par les entrées par automobile pour un jour seulement. En effet, ces entrées ont augmenté de 0.2% dans le troisième trimestre et de 12.1% dans le quatrième. Une analyse géographique des données révèle que les entrées par automobile pour un jour seulement ont augmenté de façon significative dans le sud de l'Ontario et en Colombie-Britannique qui sont deux régions qui ont de fortes concentrations de population des deux côtés de la frontière.

Les 1.8 million de résidents américains qui sont venus au Canada par avion en 1979 ont perpétué cette croissance qui a été une caractéristique des années soixante-dix. En comparaison avec 1978, le trafic par avion de 1979 a connu des augmentations trimestrielles respectives de 3%, 12%, 13% et 8%, ce qui s'est soldé par une croissance annuelle de 10.2%. Le nombre d'Américains qui sont venus au Canada par autocar a atteint 1.5 million, ce qui représente une hausse de 2.9%. La catégorie des voyages par autocar pour un jour seulement a augmenté de 0.3% alors que celle d'une nuit ou plus augmentait de 5.4%. Une comparaison par trimestre révèle que seul le premier a connu une baisse (5.9%) alors que les trois autres ont enregistré des accroissements respectifs de 1.7%, 4.8% et 7.4%. Il y a eu 780,000 visiteurs des États-Unis qui sont venus par bateau, soit un recul de 7.7% par rapport à 1978, les entrées par chemin de fer ont chuté à 92,000 (9.5%) alors que ceux qui sont venus par d'autres méthodes, soit à pied, par motocyclette, bicyclette et motoneige ont diminué de 1.3% en s'établissant à 606,000.

Le nombre total de visiteurs en provenance de pays autres que les États-Unis a atteint de nouveaux sommets en 1979 en totalisant 2.0 millions, soit 20.1% de plus qu'en 1978. Les entrées de touristes de ces pays (ce qui exclut les entrées par voie terrestre de moins de 24 heures via les États-Unis) ont augmenté de 18.7% à 1.7 million en 1979. Une analyse des données par province révèle que seulement trois provinces, en termes d'entrées directes, l'Île-du-Prince-Édouard, le Nouveau-Brunswick et la Saskatchewan, ont enregistré moins de touristes de ces pays cette année. Les cinq principaux pays générateurs de touristes ont été le Royaume-Uni avec une augmentation de 17.7% (466,100); l'Allemagne de l'Ouest avec une croissance de 28.7% (184,100); le Japon avec une hausse de 17.7% (122,700); la France avec une avance de 17.8% (108,300) et les Pays-Bas avec un accroissement de 17.5% (89,800). Sur une base continentale, le nombre de résidents en provenance d'Europe s'est élevé de 19.2%, celui d'Asie s'est accru de 19.5%, celui d'Amérique du Sud était de 21.8% plus élevé, celui d'Afrique s'est haussé de 7.0% alors que le nombre de résidents d'Australie continentale a augmenté de 13.5% par rapport à 1978. Les touristes en provenance de pays autres que les États-Unis représentent maintenant 13% du nombre total de touristes venus au Canada, soit 2% de plus qu'en 1978, en comparaison à 8% par rapport à 1972.

#### Voyageurs résidents revenant au Canada

En 1979, il y a eu 34.4 millions de résidents canadiens qui sont revenus de voyage aux États-Unis, soit 7.8% de moins qu'en 1978. Pour une quatrième année consécutive, le nombre total de Canadiens revenant de visites aux États-Unis a été plus élevé que celui des résidents américains venant au Canada. Cependant, la différence entre les deux nombres qui était de 5.7 millions en 1978 est passée à 3.2 millions en 1979. Le nombre de résidents canadiens qui sont revenus de voyages de pays autres que les États-Unis s'est élevé à 1.8 million, soit une diminution de 2.8% par rapport à 1978.

Across the country, total re-entries by Canadian residents for 1979 was down in most provinces. Only Alberta and the Yukon recorded increases in the number of Canadians returning from the United States by all modes of transport. Alberta recorded a 5% increase in returning residents due to an 80,000 growth in plane re-entries at Edmonton and Calgary. The Yukon, due to small traffic volumes, experienced a large relative increase in returns of Canadian residents because of improved road conditions between the Yukon and Alaska.

The confused gasoline situation in the United States during the first half of 1979 adversely affected Canadian automobile travel south. For the year, same-day automobile re-entries by Canadian residents were down by 6.8% while overnight returns declined by 18.0%. Third quarter travel was affected the most, as same-day and long-term automobile re-entries decreased by 9.0% and 28.3% respectively. The 2,752,000 Canadian residents who returned by automobile from visits to the United States in the third quarter of 1979 was the lowest volume recorded since the present system of enumeration was introduced in 1972, and was 1.3 million below the record year of 1977.

Plane travel by Canadian residents continued to climb sharply during 1979 probably reflecting the aggressive advertising and competitive pricing in the industry. Year-over-year increases of 7%, 17%, 13% and 13% occurred in each of the four quarters respectively and resulted in a 12% annual growth for 1979. It is estimated that approximately 2.9 million Canadian residents returned from the United States after a stay of one or more nights, this represents nearly 30% of the total long-term returns.

Bus travel from the United States by returning Canadian residents declined throughout 1979. Same-day and overnight bus returns decreased by 1.1% and 8.6% respectively resulting in a total drop of 4.3% for total re-entries for the year. The only increase in bus traffic occurred in the same-day category in the second quarter (4.2%) which produced a slight (0.1%) growth in total returns for the time period. Boat and rail re-entries from the United States, which account for less than 1% of total returns, increased by 2.1% and 3.7% respectively over the year. Canadians returning by other methods (which includes pedestrians, motorcycles, bicycles and snowmobiles) numbered 425,000 for the year, 10.4% less than in 1978.

For the first time in this decade, the number of Canadian residents returning from countries other than the United States decreased, probably reflecting the lagged affect of the depreciated value of the Canadian dollar in comparison to other currencies. For the year, 1.8 million Canadians returned from other countries, 2.8% less than in 1978, with decreases recorded in each quarter of the year. Direct re-entries declined by 3.4% while returns via the United States were 1.8% above last year's figure.

#### Estimates of "One or More Nights' Traffic"

Previously published statistics for 1979 have not provided a complete split between same-day and one or more nights traffic which normally only becomes available upon analysis of the sample survey questionnaires. However, since the unknown segment of the travel flow is relatively small, a preliminary estimate of "one or more nights" traffic is presented below because of its overriding importance in terms of expenditures and its approximation to the concept of tourism.

United States visitors remaining in Canada one or more nights entered by the following means of transport: automobile 7,766,900; bus 798,700; private plane 91,500 and private boat 124,000. The 92,000 United States travellers entering by train are also considered to have stayed one or more nights. United States residents entering

Les rentrées ont baissé dans la plupart des provinces. L'Alberta et le Yukon ont été les seules provinces enregistrant une augmentation dans le nombre de Canadiens revenant des États-Unis. L'Alberta a connu une hausse de 5% en raison d'une augmentation de 80,000 résidents revenant par avion à Edmonton et Calgary. Le Yukon, dont les volumes de trafic sont petits, a rapporté une avance importante dans le nombre de résidents revenant de l'Alaska en raison des améliorations apportées au réseau routier les reliant.

La situation plus ou moins confuse quant à la disponibilité de l'essence aux États-Unis au cours des six premiers mois de 1979 a eu un effet négatif sur les voyages par automobile des Canadiens dans ce pays. Les rentrées du même jour par automobile ont baissé de 6.8% au cours de l'année alors que celles d'une nuit ou plus ont chuté de 18.0%. Le troisième trimestre a le plus souffert puisque les rentrées du même jour et d'une nuit ou plus par automobile ont connu des diminutions respectives de 9.0% et 28.3%. Les 2,752,000 Canadiens qui sont revenus de visites aux États-Unis par automobile au cours du troisième trimestre de 1979 était le plus petit nombre enregistré depuis que le présent système d'énumération a été introduit en 1972 et était de 1.3 million inférieur au niveau record atteint en 1977.

Le nombre de Canadiens voyageant par avion a continué à s'accroître de façon significative en 1979, probablement en réponse à la publicité agressive et aux prix compétitifs mis de l'avant par l'industrie. Une analyse du trafic par trimestre révèle des augmentations respectives de 7%, 17%, 13% et 13% qui ont conduit à une croissance annuelle de 12%. Il a été estimé qu'il y a eu environ 2.9 millions de résidents canadiens qui sont revenus des États-Unis par avion après un séjour d'au moins une nuit, ce qui représente près de 30% du total des rentrées après un séjour d'une nuit ou plus à l'étranger.

Le nombre de résidents canadiens revenant des États-Unis par autocar a diminué tout au cours de 1979. Le trafic du même jour a baissé de 1.1% et celui d'une nuit ou plus a chuté de 8.6% causant ainsi un recul de 4.3% pour le nombre total d'entrées pour l'année. La seule augmentation dans le trafic par autocar a eu lieu dans le deuxième trimestre alors que la catégorie du même jour a connu une hausse de 4.2% produisant ainsi un léger gain (0.1%) dans le nombre total de rentrées pour le trimestre. Les rentrées par bateau et par chemin de fer, qui représentent moins du 1% du trafic global, ont réalisé des gains respectifs de 2.1% et 3.7% pour l'année. Les Canadiens qui sont revenus par d'autres méthodes (soit à pied, par motocyclette, par bicyclette et par motoneige) ont totalisé 425,000, soit 10.4% de moins qu'en 1978.

Pour la première fois au cours de la décennie, le nombre de Canadiens revenant de voyage de tous les autres pays a diminué, reflétant probablement la valeur dépréciée du dollar canadien face aux autres devises. Ainsi, il y a eu 1.8 million de Canadiens prenant de tels voyages en 1979, soit 2.8% de moins qu'en 1978, alors que des baisses ont été rapportées dans chaque trimestre. Les rentrées directes ont chuté de 3.4% alors que celles via les États-Unis étaient de 1.8% supérieures à l'année dernière.

#### Estimation des chiffres de la catégorie "Une nuit ou plus"

Les statistiques publiées antérieurement pour l'année 1979 n'ont pas encore été réparties de façon complète entre les voyageurs qui rentrent au Canada après avoir passé d'une part une journée et de l'autre une nuit ou plus à l'étranger. Généralement, on obtient cette ventilation seulement après l'analyse des questionnaires de l'enquête faite par sondage. Toutefois, comme le segment inconnu est relativement petit, une estimation préliminaire de la catégorie "une nuit ou plus" est présentée ci-dessous en raison de son importance primordiale au chapitre des dépenses et à son rapprochement au concept de tourisme.

Les visiteurs venus des États-Unis et restant une ou plusieurs nuits ont utilisé les moyens de transport suivant: automobile 7,766,900; autocar 798,700; avion privé 91,500 et bateau privé 124,000. Les 92,000 résidents américains qui sont entrés au Canada en train sont considérés comme ayant séjourné une nuit ou plus. Les résidents des États-Unis qui ont utilisé les

Canada by commercial plane or boat are not recorded by length of stay and it is necessary to estimate this split from past relationships. Of the 2,208,500 visitors entering by these modes in 1979, 1,688,100 were estimated to have remained in Canada one or more nights. Therefore in total, it was estimated that 10,561,200 United States residents remained one or more nights in Canada, a decrease of 6.3% over 1978.

Canadian residents returning from the United States after a stay of one or more nights included 6,848,600 travelling by automobile, 537,100 by bus and 40,200 by train. Based on past proportions, residents returning after a stay in the United States of one or more nights by plane and boat were estimated at 2,993,700. Thus in total, Canadian resident travellers returning after a visit to the United States of one or more nights were estimated to have numbered 10,419,600, down 10.6% from last year.

Canadian resident travellers returning from countries other than the United States can all be considered as staying "one or more nights" abroad and numbered 1,757,100 in 1979, 2.9% less than in 1978.

Non-resident visitors from countries other than the United States totalled 2,010,600 in 1979. Although the current reporting system only provides statistics on length of stay for those visitors by land via the United States (304,400 same-day travellers), the remaining 1,706,200 are assumed to be mostly overnight travellers, an increase of 18.7% over 1978.

lignes commerciales aériennes et maritimes ne sont pas comptés selon la durée du séjour et on doit avoir recours à des estimations basées sur les données des années précédentes pour évaluer le nombre de voyageurs qui ont passé une ou plusieurs nuits au pays. Des 2,208,500 visiteurs venus au Canada par mer et par air en 1979, on évalue à 1,688,100 le nombre de ceux qui ont effectué un séjour d'une ou plusieurs nuits. Au total, on estime à 10,561,200 le nombre de résidents des États-Unis qui sont restés une ou plusieurs nuits au pays, ce qui représente une baisse de 6.3% par rapport à l'an dernier.

Les résidents canadiens qui sont revenus des États-Unis après un séjour d'une ou plusieurs nuits comprenaient 6,848,600 personnes qui avaient voyagé en automobile, 537,100 en autocar et 40,200 en train. D'après les proportions des années précédentes, on estime à 2,993,700 le nombre de voyageurs par avion ou bateau revenus des États-Unis après un séjour d'une nuit ou plus. Ainsi, au total, on évalue à 10,419,600 le nombre de résidents canadiens qui ont séjourné une nuit ou plus aux États-Unis en 1979, ce qui représente une diminution de 10.6% par rapport à l'an dernier.

Les résidents canadiens qui ont voyagé dans d'autres pays que les États-Unis sont tous classés dans la catégorie "une nuit ou plus" et ont totalisé 1,757,100 en 1979, soit 2.9% de moins qu'en 1978.

Il y a eu 2,010,600 résidents de pays autres que les États-Unis qui sont entrés au Canada en 1979. Bien que le système actuel de déclaration ne fournisse des données sur la durée du séjour que dans les cas de ceux qui viennent par voie de terre via les États-Unis (304,400 voyageurs du même jour), on prend pour acquis que les 1,706,200 autres sont en grande partie des visiteurs dont le séjour a duré une ou plusieurs nuits; soit une augmentation de 18.7% par rapport à 1978.

## METHOD OF COLLECTION

The statistics published in this report provide measures of international traveller flows across Canada's frontier.

The surveys cover non-residents entering Canada and residents returning to Canada from the United States and other countries at land, air and sea points of entry.

The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

All travellers who clear customs are recorded by Customs' officers on the documents listed below:

**E62 Entry Tally** — To record travellers by land and car ferry at ports of entry on the United States-Canada border. This count of United States and Canadian travellers is done on a full census basis except for seven points of entry where sampling techniques are used linked to toll counts to provide estimates of traffic categories. The sample consists of systematically selecting 25% of the days of the year and conducting a census of travellers on each of the selected days.

**E63 Private Craft and Passenger Arrivals** — To record on a census basis travellers entering Canada by private plane and boat, commercial freighters, passenger ferries and excursion cruises.

**E64 Referral Card** — to record on a census basis travellers entering Canada in commercial planes and boats including charter and cruise arrivals.

All the above forms are sent directly to the International Travel Section in Statistics Canada for processing, summary and publication. Documents are registered, sorted, edited and captured on a mini-computer system.

Data on expenditures of travellers produced in Table 1 are derived from questionnaire sample surveys. Detailed methods and definitions are described in publication 66-201, Annual, "Travel Between Canada and Other Countries".

For further information please contact Mr. Mike Valiquette, Chief, International Travel Section, Statistics Canada, Ottawa, K1A 0Z8 (613-995-0847).

## Definition of Terms

**International Traveller** — The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

**Non-resident traveller** — An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.

## MÉTHODE DE COLLECTE

Cette publication présente la statistique sur les mouvements des voyageurs internationaux traversant les frontières canadiennes.

L'enquête couvre les non résidents entrant au Canada et les résidents revenant au Canada après un voyage aux États-Unis et dans les autres pays aux différents points d'entrée (terre, air et mer).

Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'œuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Tous les voyageurs qui passent à la douane sont inscrits par les douaniers sur les documents décrits ci-après:

**E62 Feuille de pointage des arrivées** — Sert au dénombrement des voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis — Canada. Il s'agit habituellement d'un dénombrement intégral, sauf pour sept points d'entrée où on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage pour estimer les catégories de trafic. L'échantillon représente un dénombrement systématique de 25% des jours de l'année au cours desquels on conduit un dénombrement intégral des voyageurs.

**E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers** — Sert au dénombrement intégral des voyageurs arrivant au Canada en avion ou en bateau particulier, à bord de cargos, de traversiers et de navires de croisière.

**E64 Referral Card** — Sert au dénombrement intégral de voyageurs arrivant au Canada par avion et bateau commercial, y compris par vol nolisé et par bateau de croisière.

Toutes ces formules sont envoyées directement à la section des voyages internationaux de Statistique Canada pour l'exploitation, la mise en sommaire et publication. Les documents sont enregistrés, triés, vérifiés et captés par un système de mini-ordinateur.

Les données sur les dépenses des voyageurs reproduites au Tableau 1 sont dérivées d'enquêtes par sondage. La publication annuelle "Voyages entre le Canada et les autres pays" no. 66-201 au catalogue, donne des détails sur les définitions et méthodes employées dans ces enquêtes.

## Définitions des termes

**Voyageur international** — Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories voyageurs non résidents et voyageurs résidents les autres répondent à peu près à la définition internationale de "touriste".

**Voyageur non résident** — Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire.
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou éplettes.

- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

**Resident Traveller** — An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

**Other Travellers** — A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

**Land** — Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

**Air** — Commercial and charter services and private plane.

**Marine** — Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on freighters.

**Other Methods** — Pedestrians, bicycle, motorcycle, etc.

**Direct to Canada** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

**Via the United States** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in The Southern United States who travels to the Caribbean would be counted as returning via the United States.

**Countries Other than the United States** — This designation includes all countries other than Continental United States, Alaska and Hawaii.

- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

**Voyageur résident** — Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qu'il ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

**Autres voyageurs** — Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure.
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

**Par terre** — En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

**Par air** — Services commerciaux, vols nolisés et avions particuliers.

**Par eau** — Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

**Autres moyens** — À pied, à bicyclette, en motocyclette, etc.

**Directement au Canada** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

**Via les États-Unis** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance; il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois; comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant aux pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

**Pays autres que les États-Unis** — Cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii.
